

Nobel Royal Black Dalum

Automatic 40 mm, silver

Reference Number: NR002S

PRODUCT INFORMATION

Nobel Royal Black Dalum is a delicate watch for the one who understands style. It comes together with a beautiful black leather band and a smooth butterfly clasp. Put together to give you the perfect touch to any outfit.

Rumoe is an excellent timepiece balancing elegance and simplicity. The Nobel Royal is equipped with a timeless automatic movement for premium quality, accuracy and functionality.

PREMIUM LEATHER

The leather bands are made out of calf leather. The calf leather itself is valuable because of its softness, fine grain, and durability. Rumoe is also equipped with a butterfly clasp, because of its great comfort and easy use.

CRYSTAL GLASS

The Rumoe Nobel Royal is fitted with a sapphire crystal glass, one of the most resistant forms of crystal there is. It features a convex curve on the outer side of the crystal and concave curve on inner side of the crystal and therefore allows a clear view of the dial from almost any angle.
